Subject: Re: River Rock Casino - A Policing Response

Thanks Fred
Tony will get back to you this week with a coordinated response after we connect with LMD District.
This is good news...
tnx

Good day Ward and Tony. I thought you might be interested to know that Dick Bent gave me the green light this afternoon to draft a BC for the formation of a provincial sub unit within IIGET to support agencies and detachments which host casinos. My inclination is to think a bit bigger than when we last met, specifically by adding an intel probe team and a CM analyst to the enforcement body. Both components to be led by Sgts, given the high risk (OC) nature of the investigations, and the Division-wide scope of the proposal.

I'd like to provide a quick turnaround, but I'd appreciate any insights you can offer in anticipation of banging this out over the next 7-10 days.

Your suggestions would be welcome.

Cheers, Fred
